

Exmouth Town Council

Community Emergency Plan Exmouth

29.09.2023 V1.9a

DEVON COMMUNITY RESILIENCE FORUM

Amendments

Date	Page number	Reason for amendment	Changed by
18/11/2019	Annex A	Review by EA with advice to make reference to Annex J to highlight actions for flooding issues	Chetna Jones
25/11/2019	Annex D	Clarify initial process for activating the plan and add communication details. These were added as it was felt there was not sufficient information for the volunteers following the first test exercise of the plan on 20 Nov 2019.	Chetna Jones
25/11/2019	Annex E	Add additional volunteer information and make it clear that personal contact details were only available in the confidential version held by LERT members. These were added as it was felt there was not sufficient information for the volunteers following the first test exercise of the plan on 20 Nov 2019.	Chetna Jones
25/11/2019	Page 6	Identify use of Emergency Planning Box and locations stored	Chetna Jones
12/12/2019	Annex D	Addition of importance of gathering evidence during and after to learn from the experience. At the CRF it was highlighted that the coordinator may be asked to stay when emergency services arrive.	Chetna Jones
10/01/2020	All Page 6	Minor typo amendments/formatting. Clarification of Emergency Planning Box locations, incl ICPs/community shelters.	Natasha Smart
17/01/2020	Page 6 and Annex A - Ward risk assessments.	LERT volunteers to be known as LERT Coordinators. Addition of ETC promoting self-help as part of risk assessment as well as altering the plan to clarify that LERT coordinators will make arrangements to put out sandbags rather than putting them out themselves.	Chetna Jones
15/05/2020	Pages 5, 67-69 (Annexes K & L)	Following the 2020 Covid-19 pandemic, inclusion of example of community aid action group activity and communication leaflet at Annex K.	Natasha Smart
01/10/2020	Pages 5-8, 53-54 & 69-72 (Annexes L-N)	Update to 3.1 Triggers on pandemics and Annex H support groups and addition of new Annexes L (Pandemics) and M (grit bins).	Natasha Smart
01/10/2020	Page 4	Addition of paragraph expanding ETC role.	Chetna Jones
21/01/2021	Page 70	Addition of updated grit bin list at Annex M.	Natasha Smart
27/09/2022	Page 73 Pages 6 & 7 Pages 44 & 45	Addition of Prolonged Loss of Power Annex N Addition of What3Words to identify locations Updated volunteer and LERT contact details	Chetna Jones Samantha Dorman

1. Introduction

An emergency/major incident is any event or circumstance (happening with or without warning) that causes or threatens death or injury, disruption to the community, or damage to property or to the environment on such a scale that the effect cannot wholly be dealt with by the emergency services, local authorities and other organisations as part of their normal day-to-day activities.

Although there is no statutory responsibility on Exmouth Town Council to plan for, respond to, or recover from emergencies, this plan follows Devon County Council's advice for the town to have a simple emergency plan in place in order to be able to support themselves during an emergency. There is an expectation that major incidents would be responded to by the emergency services or other statutory bodies. However, a situation could occur when, for various reasons, an immediate response would not be possible, and this is where our plan would apply.

1.1. Responsibility for the Plan

This plan has been developed to provide resilience for the community in Exmouth in the pre-event phase or early stages of an emergency. Exmouth Town Council Community Resilience Working Party is responsible for compiling and maintaining this plan. It will be reviewed every 12 months or as appropriate.

1.2. Aim

Due to the unknown nature of emergencies, the emergency services, local authorities and councils may be overwhelmed, resulting in a delayed response.

The aim of this plan is initiate a local first response to an emergency, to take action to assist those immediately affected, to hold the situation until emergency services can take over, and to contribute to the recovery once the emergency has passed.

1.3. Role and Objectives

Recent events (Covid-19 pandemic) have highlighted Exmouth Town Council's role during an emergency to be one which supports the community organisations in helping local people. This will include: promoting the work of the community organisations; providing advice and guidance; co-ordinating and bringing together community organisations; providing financial assistance where needed; and being the link to the statutory authorities. Exmouth is fortunate in having many organisations offering a range of expertise, making the town quite unique. For this reason, the Town Council's role will differ from other towns and parishes and will play an important function in bringing together these expert organisations to deliver the help needed during a crisis.

Exmouth Town Council's main objectives in respect of emergency planning are:

- To establish a risk assessment of possible emergency situations most likely to impact the community
- To have procedures in place for responding to an emergency situation
- To establish capacity to man a local control centre
- To have key contact details for the emergency services
- To hold key details of resources within the town available for use in an emergency
- To hold a list of areas within the community identified as being most at risk in an emergency situation

2. Knowing the Unknowns

2.1. Identifying and preparing for risks

Continue with promotion of households preparing themselves in an emergency. Provide “What would you do in an emergency” leaflet.

Risk assessments for Exmouth with actions by ward are listed in **Annex A**.

Risk assessment for volunteers can be found in **Annex B**.

Maps of the 5 wards within the Parish of Exmouth can be found in **Annex C**.

3. Activating the Emergency Plan

A guideline activation procedure can be found in **Annex D** and details the procedure that should be followed following an emergency or serious incident.

This plan will be activated when an emergency has occurred and it is clear that normal response times of the emergency services is expected to be of extended duration.

3.1. Triggers

The plan will be triggered by the following type of event or receipt of the following type of information (informed by the risk assessments in Annex A):

- Snow/Ice making local roads impassable
- Flooding of routes in and out of the town including the A376 and the railway line
- Flooding of properties
- Storm damage to power cables, fallen trees across roads and damage to property due to high winds
- Excessive heat resulting in disruption to water supplies and risk of fire
- Drought resulting in disruption to water supplies
- Industrial emergencies including fuel spillages and farm accidents impacting on the public
- Road traffic collision, particularly on the A376, prior to arrival of the emergency services
- Aircraft down locally
- Fire, particularly involving thatched properties in Littleham and Withycombe Raleigh or businesses on industrial estates
- Loss of services including power, communications, water or transport
- Pandemic (or UK declaration), including influenzas (see **Annex L** for details and **Annex K** for an example of community aid group activity created to support Exmouth during the 2020 Covid-19 pandemic)
- Terrorist incident
- Serious domestic incident

If there is a trigger event, please see **Annex D** for next steps.

All Local Emergency Response Team (LERT) Coordinators will hold a full copy of the emergency plan.

Example triggers and possible action:

Trigger	Possible Action
Emergency services: direct notification of an emergency	Respond as directed
Environment Agency (EA) Coastal Flood Warnings	Flood warning (which means, “flooding is expected. Take action”): close flood gates; alert at-risk residents in person; make arrangements to put out sandbags. Severe flood warning (which means, severe flooding is expected, danger to life”): assist residents’ move to an emergency shelter.
EA River Flood Alerts for ‘South Devon estuaries’/‘Rivers Otter/Sid, Exmouth Area’	Flood alert (which means, “flooding is possible. Be prepared”).
Met Office severe weather alerts	Snow: activate approved 4x4 vehicle group to help transport staff to/from RD&E.
Pandemic or likelihood of declaration of pandemic	Engage with appropriate support groups listed in Annex H .

4. Incident Coordination

The Local Emergency Response Team (LERT) will convene at the Incident Control Point (ICP). It will establish the nature, severity and location of the incident, noting approximate number of casualties if feasible, and **make a decision, which will be documented through the draft notes of the meeting** (see **Annex D**).

Key LERT personnel details are included at **Annex E**. Incident Control Points (ICPs) are:

ICP 1: **Exmouth Town Hall**, St Andrew's Rd, Exmouth, EX8 1AW (**01404 515616**). 50.618661, -3.414721, **follow.last.insert**

ICP 2: **Exmouth LED Tennis and Fitness Centre**, Withycombe Village Road, Exmouth EX8 3AE (**01395 266381**). 50.627570, -3.405149, **ranges.spends.wider**

ICP3: **Brixington Community Church**, Churchill Road, Exmouth, EX8 4JJ (**07963 741887**). 50°38'15.2 N 3°23'28.8 W, **putty.fries.nurses**

LERT will:

- Alert, if appropriate, the emergency services via 101 to register concerns or 999 if an immediate response is required;
- Inform EDDC's Home Safeguard on 01404 515616 or out of hours on 01395 516854;
- Make contact with other LERT Coordinators as well as local people who have offered skills or services;
- Arrange for the Field Team to make contact with those affected via phone or in person (if possible).

Key contact details are found at **Annex F**.

All ICPs as identified above will hold a full copy of the emergency plan, along with other essential emergency equipment in an Emergency Planning Box. It will be the responsibility of Exmouth Town Council to check the contents on a regular basis for any damage/replacements

needed.

When the emergency services arrive, they may choose a different ICP. The key personnel should introduce themselves, give the emergency services a copy of the Community Emergency Plan and provide local knowledge and a situation report (an example of a SITREP can be found at **Annex G**).

5. Community Shelter(s)

If people need to leave their homes, the district council and/or county council or unitary authority will open a rest centre.

If a local authority cannot provide immediate assistance, a Community Shelter will provide a short-term refuge.

Community Shelters:

CS1: **Brixington Community Church**, Churchill Rd, Exmouth, EX8 4JJ.
50°38'15.2 N 3°23'28.8 W, **putty.fries.nurses**

CS2: **Holy Trinity Church**, Rolle Road, Exmouth, EX8 2AB.
50°37'01.9 N 3°24'42.8 W, **bulb.lively.update**

CS3: **Littleham Village Hall**, 61 Littleham Rd, Exmouth EX8 2QL.
50°37'28.4"N 3°22'50.2"W, **finely.yelled.above**

CS4: **Clayton House Community Centre**, 148 Salterton Rd, Exmouth EX8 2PD.
50°37'40.6"N 3°22'53.8"W, **scuba.caring.wedge**

CS5: **Gorfin Hall**, Claremont Ln, Exmouth EX8 2LE. 50°37'17.8"N 3°23'54.2"W, **liver.lofts.spoon**

CS6: **Exmouth LED Tennis and Fitness Centre**, Withycombe Village Road, Exmouth EX8 3AE. 50.627570, -3.405149, **ranges.spends.wider**

For keyholder contact details and community resources, see **Annex H**.

5.1. Establishing and operating a Community Shelter(s)

For instructions, see **Annex I**.

5.2. Helicopter Landing Sites

Helicopter Landing Sites (HLS) will only be used by emergency services in the rescue phase of an emergency.

Areas for suitable HLS:

Exmouth Football Club - 50°37'36.1"N 3°24'49.6"W, **nasal.spicy.will** (designated night landing site)

Phear Park - 50°37'32.2"N 3°24'16.8"W, **play.belt.door**

6. Flood Plan

Due to the likelihood and severity of flooding issues, a separate flood plan has been developed in conjunction with the Environment Agency and is included at **Annex J**.

7. Plan Maintenance

Exmouth Town Council Community Resilience Team should meet every six months to discuss community resilience arrangements, as well as every year to review the plan and check that contact numbers are correct.

When sending out updated pages of the plan it is important to ensure the old pages are returned. For a distribution list, see **Annex N**.

Annex A – Community Risk Assessment: Risks Identified by Ward

A1 Town Ward

Risks	Likelihood	Score (a)	Impact on community	Score (b)	Severity (a)x(b)	What can the Community Response Team do to prepare?
Heavy rainfall leading to flooding in town centre or elsewhere.	Currently EA has identified 4% chance, with a large area of The Colony affected.	4	<p>Disruption to transport & services. Increased likelihood of RTAs. Isolation of community & individuals.</p> <p>Damage to property and danger to public.</p>	2	8	<p>See also Annex J for Community Flood Plan.</p> <p>Encourage residents to improve home flood defences. ETC to regularly promote self-help and sandbag information.</p> <p>Work with local emergency responders to see if they can help with distribution of flood warnings and any evacuation and rest centre establishment required.</p> <p>Exmouth Town Council Supplementary Maintenance Team (all trained in chapter 8 procedures) to ensure drains and gullies are regularly inspected and cleared. Additional problems to be reported to DCC promptly.</p> <p>EA to deliver new flood defence scheme reducing probability to 1% chance.</p>

Storm involving difficult access.	On occasion.	3	Damage to seafront properties.	2	6	See also Annex J for Community Flood Plan. EA to deliver new flood defence scheme reducing probability to 1% chance.
Heavy rainfall with high tide, leading to waves overtopping seawall and water flowing towards town.	Currently EA has identified 4% chance, with a large area of The Colony affected.	4	Damage to property and danger to public.	2	8	See also Annex J for Community Flood Plan. EA to deliver new flood defence scheme reducing probability to 1% chance.
Major fire in a densely populated area.	Fire service statistics show this is low.	2	Damage to property and danger to public.	4	8	Support emergency services as required.
Transport	Closure due to RTA, trees down, fire, pollution etc.	4	Disruption of traffic movement/essential/emergency services. Possible casualties.	2	8	Support Emergency Services as required.
Major incident on A376						
Approach roads into Town Centre	On average incidents 2 times per year.	3		2	6	Local clearance of blockages. Signage to be deployed using chapter 8 trained staff. Support Emergency Services if required.
Railway Line	Closure due to damage on the line or incident	3	Replacement buses, more people using private transport causing more disruption on A376.	2	6	Response may be needed if local incident. Support Emergency Services if required.

Power failure to utility supplies (prolonged electricity power outage, gas supply problems, water stoppage or pollution).	Could be prolonged	1	Loss of communication. Loss of heating and cooking facilities. Especially severe in winter months	2	2	Identify alternative power sources to request on demand. Identify wind-up power sources for torches, mobile phones, radios etc to maintain communication. Contact vulnerable families. Set up community shelters to provide warmth and hot food.
Sewage pumping station problems.	More likely due to antiquated equipment and amenities.	4	Pumping station failure. Damage to property and danger to public health	2	8	See also Annex J for Community Flood Plan. Encourage residents to improve home flood defences. ETC to regularly promote self-help and sandbag information. Work with local emergency responders to see if they can help with distribution of flood warnings and any evacuation and rest centre establishment required. Exmouth Town Council Supplementary Maintenance Team (all trained in chapter 8 procedures) to ensure drains and gullies are regularly inspected and cleared. Additional problems to be reported to DCC promptly.

						Meet with SWW to ensure pumping station well maintained and look at associated risks.
Major snowfall(s) and/or combined with prolonged period of low temperatures (freezing conditions).	High over last few years.	4	Disruption to transport and services. Increased likelihood of RTAs. Isolation of community and individuals.	2	8	Contact local building merchants to obtain salt/grit and arrange for volunteers to clear and support the vulnerable. See also Annex M for location of grit bins in Exmouth. Encourage residents to set up an Emergency box including dry/tinned food and encourage self-help for snow.
Excessive heat in summer.	Likelihood increasing	3	Individuals suffering heat stroke/exhaustion. Disruption to water supply. Fire.	3	9	Arrange for elderly/vulnerable people to be checked.
Terrorist incident.	Unlikely, but in light of national incidents is being included.	1	Disruption to services. Injuries and potential fatalities. Panic situation likely.	5	5	Publicise Government advice re Run, Hide, Tell and other strategies.
Violence/Street fights.	Likely but on small scale.	5	Injury to vulnerable people especially children.	2	10	Work with police and emergency services, including local youth forums, social services. Improve town CCTV.

A2 Withycombe

Risks	Likelihood	Score (a)	Impact on community	Score (b)	Severity (a)x(b)	What can the Community Response Team do to prepare?
Chemical explosion, fire etc.	On occasion.	2	Exmouth Community College .Dinan Way – Euro Tech at Salterton Trading Estate Pound Lane Trading Estate Withycombe Village Trading Estate Liverton Business Park	4	8	Set up community shelter. Work with local emergency responders to help with any evacuation.
Flooding.	Prone to flooding as identified by EA on flood map (Annex I).	4	Withycombe Village Brook if culvert gets blocked. Pumping Station (bottom Phear Park) - flooding and sewage problems if pumps stop or blockage.	2	8	See also Annex J for Community Flood Plan. Encourage residents to improve home flood defences. ETC to regularly promote self-help and sandbag information. Work with local emergency responders to see if they can help with distribution of flood warnings and any evacuation and rest centre establishment required. Ensure culvert is cleared. Meet with SWW to ensure pumping station well maintained and associated risks are considered.

Major snowfall(s) and/or combined with prolonged period of low temperatures (freezing conditions).	High over last few years.	4	Disruption to transport and services. Increased likelihood of RTAs. Isolation of community and individuals.	2	8	<p>Contact local building merchants to obtain salt/grit and arrange for volunteers to clear and support the vulnerable. See also Annex M for location of grit bins in Exmouth.</p> <p>Encourage residents to set up an Emergency box including dry/tinned food and encourage self-help for snow.</p>
Excessive heat in summer.	Likelihood increasing	3	Individuals suffering heat stroke/exhaustion. Disruption to water supply. Fire.	3	9	Arrange for elderly/vulnerable people to be checked.
Terrorist incident.	Unlikely, but in light of national incidents is being included.	1	Disruption to services. Injuries and potential fatalities. Panic situation likely.	5	5	Publicise Government advice re Run, Hide, Tell and other strategies.
Power failure to utility supplies (prolonged electricity power outage, gas supply problems, water stoppage or pollution).	Could be prolonged	1	<p>Loss of communication.</p> <p>Loss of heating and cooking facilities. Especially severe in winter months.</p>	2	2	<p>Identify alternative power sources to request on demand.</p> <p>Identify wind-up power sources for torches, mobile phones, radios to maintain communication.</p> <p>Contact vulnerable families.</p> <p>Set up community shelters to provide warmth and hot food.</p>

A3 Brixington

Risks	Likelihood	Score (a)	Impact on community	Score (b)	Severity (a)x(b)	What can the Community Response Team do to prepare?
Major snowfall(s) and/or combined with prolonged period of low temperatures (freezing conditions).	High over last few years.	4	Disruption to transport and services. Increased likelihood of RTAs. Annex B – Risk Assessment for Volunteers

Flood Warden Risk Assessment Form

Location: Completed by: Date:

Potential hazards identified	Likelihood of occurrence (L)	Risk severity (S)	Risk rating (L x S)	Accept initial risk assessment ? (Yes or No)	Comments or precautions	Accept modified risk? (Yes or No)
Drowning (a person can drown in an inch of water and only 15cm of flowing water can sweep an adult off their feet).	1	5	5	Y	Avoid walking through flood water.	Y
Submerged hazards – you may not be able to see what lies beneath flood water (uncovered drains and displaced lids present a trip hazard)	3	3	9	Y	Be alert to kerbs and steps that may be hidden by flood water. Always ensure you can see the surface you are walking on. A stout stick can be used as an aid to balance. Avoid walking through flood water.	Y
Rivers can be dangerous, even under normal conditions.	4	4	16	N	Do not attempt to enter river water.	Y
Emergency exit routes may be cut-off by water.	3	2	6	Y	Avoid being cut off by rising flood water. Be mindful to look and listen and continually assess the situation as it develops around you. Always	Y

					consider an exit route and a safe location to retreat to if necessary.	
Flood water may be contaminated by diseases, agricultural chemicals and animal waste. E.g. Weil's disease, leptospirosis.	4	4	16	N	Cover all cuts and broken skin with waterproof plasters before and during your duties. Protecting your hands can prevent infection. Wash your hands in clean fresh water after coming into contact with flood water and always before eating, drinking and smoking. Carry an anti-bacterial hand wash and treat your hands regularly if you come into contact with flood water. Seek medical advice immediately if anyone else is affected by diarrhoea, fever or abdominal pain. Wash footwear, clothing and gloves before they are used again.	Y
The dangers of unblocking drains e.g. becoming trapped.	3	2	6	Y	Do not attempt to unblock drains during a flood or remove drain covers at any time unless you have been adequately trained or authorised to do so by the appropriate authority.	Y
Electrical hazards may exist during and after a flood.	3	5	15	N	Look out for fallen power lines. Do not enter flooded areas or touch electrical equipment if the ground is wet unless you are certain the power is off. Never assume any part of a flooded electrical installation or appliance is safe. If water has been present anywhere near electrical circuits and electrical equipment, turn off the power at the main breaker or fuse on the service panel. Do not turn the power back on until it has been inspected by a qualified electrician. Do not turn on any electrical equipment if it has been underwater until it has been inspected by a	Y

					qualified electrician. These items may work and appear safe but once they have been underwater, they could cause electrocution or fire.	
Flood water can damage the controls of gas appliances.	1	5	5	Y	If you smell gas or hear gas escaping, turn off the main gas valve, open windows, leave the area immediately, and report the leak when safe to do so. Do not light a match, avoid using any electrical appliance, do not turn lights on or off, or use a phone as these electrical items may produce a spark. Ensure any works are carried out by a qualified gas engineer.	Y
Working in isolation/lone working.	4	4	16	N	Do not work alone. Work in pairs or small groups. Remain in clear view of others. Wear high visibility clothing. Inform someone, such as your group coordinator, of your activities and where you are. Maintain visual contact with another community volunteer or member of the emergency services at all times. Inform someone else where you are and what you will be doing before you start your activities. Contact your group coordinator and let them know. Even a simple device such as a safety whistle can be a good form of communication to summon help if you are in danger or come across an emergency situation.	Y
Hypothermia.	3	5	15	N	Make sure you're dressed appropriately before you go outside. Wear layers of clothing to trap air, this will help to keep you warm (tightly woven and waterproof clothes are best). Drink plenty of fluids and hot drinks (not alcohol) and eat regular, balanced meals to give you energy. If you show signs of hypothermia stop what you are doing and	Y

					seek medical attention. Listen to the advice of others as they may identify the signs of hypothermia before you do.	
Slips, trips and falls.	4	4	16	N	During and after a flood, your surroundings may be slippery, wet and may contain mud and debris. Avoid walking in these conditions if possible, but if you must, take extra care. Always wear suitable sturdy footwear.	Y
Falling hazards, associated with stormy conditions with high wind speeds.	4	5	20	N	Be aware of falling hazards e.g. roof tiles, trees and branches. Continually assess the risk around yourself at all times. Do not walk or stand beneath or close to trees or buildings during high winds.	Y
Aggressive people – at times of flooding, people may behave differently due to stress. This can be in the form of irrational and sometimes aggressive behaviour.	2	2	4	Y	If you are confronted with aggressive people, do not put yourself at risk. If they need emergency assistance, contact the emergency services.	Y
Animals (pets and livestock) may be dangerous/unpredictable under stress.	2	2	4	Y	Do not approach animals unless you consider it is safe to do so. If you are unsure, contact a member of the emergency services or a dog warden.	Y
Alcohol (due to the fact that flooding can occur at any time without prior warning, it's possible that this	4	4	16	N	Do not drink alcohol if you have received a flood warning and there is a possibility that you may be required to act as a community volunteer. Do not carry out the role of a community volunteer if you have been drinking.	Y

can happen at a time when you have been drinking alcohol).						
Traffic (can be exacerbated by poor driving conditions and decreased visibility in bad weather).	2	4	8	Y	Avoid walking or standing on or close to a road with passing traffic. Even on a pavement you may be vulnerable to being struck by a vehicle. Always stand a safe distance away from moving traffic. Be alert at all times and stand clear of any working vehicles or machinery. You should not put yourself at risk by attempting to stop traffic.	Y
Driving (standing water increases the risk of aquaplaning).	2	4	8	Y	Always drive at a safe and responsible speed. Do not attempt to drive through flooded roads or fords. Do not attempt to recover a vehicle yourself if water has reached inside. Do not drive through roads that have been closed by the emergency services. Make sure someone else knows your travel plans.	Y
Disclosure of sensitive information.	2	2	4	Y	Do not pass information relating to individuals or specific households or businesses onto anyone other than members of the emergency services during a flood.	Y
Tourists and visitors (may not speak or understand English and may be unfamiliar with the area and local flood risk).	2	4	8	Y	Do not assume everyone has understood your instructions. Some people may require extra guidance.	Y
Press and media (may ask you to disclose your personal opinion)	2	2	4	Y	It is best that you do not comment to the press or media. Direct members of the press or media to contact your group coordinator or media spokesperson or the emergency services.	Y

Criminal activity (individuals may take the opportunity to cause damage to property or take possessions from homes or businesses).	2	2	4	Y	If you witness such activity, do not approach or tackle the individuals yourself but report them to the police when it is safe to do so.	Y

Annex D – Procedure to Initiate the Emergency Plan and Logging Sheet

There are 5 allocated personnel, who can be contacted in the case of a perceived emergency. It is the responsibility of these people, working together if possible, to activate the plan when required, as described in the procedure below. The control centre will be activated and additional key personnel (Annex E) and the emergency services (Annex F) contacted.

Record all information during an emergency. For example, if it is safe to do so during a flood, take photos and note the date, time and location of flooding.

A log sheet is an easy way to ensure information is not lost and can help support/justify any decisions made or actions taken.

Format for **draft notes of the Local Emergency Resilience Team (LERT) meeting**:

1. List of those present
2. Resolution: It was decided to/not to declare a state of emergency in Exmouth (Ward) at this time for the following reasons etc
3. As a result, the plan was/was not activated
4. Identify and make note of actions even if the plan is not activated
5. Signature (with name printed underneath) and date

Activation procedure and logging sheet

Action		Complete
1	If an emergency is possible or anticipated, monitor the situation and contact key personnel (Annex E) and warn the community. Be prepared to respond urgently. NB consider using group chats such as WhatsApp to contact all volunteers to be on standby and use social media to forward Met Office/EA/emergency services' warnings to the community.	
2	After monitoring the situation, if it is deemed necessary to initiate the plan, dial 999 and ensure the emergency services are aware of the emergency and follow any advice given.	
3	Contact and inform your district council. During out of hours this will be through Home Safeguarding.	
4	If advised by the emergency services, LERT Coordinators to liaise with lead person responsible for setting up and establishing ICP, contact volunteers to inform them of the situation and request that all volunteers report to the ICP for further instructions. Remind all volunteers of advice below.	

5	Record details on the log sheet on the other side of this page. Include: <ul style="list-style-type: none"> • Decisions you have made and why • Actions taken • Who you spoke to and what you said (include contact numbers) • Information received 	
6	Contact other personnel from Annex E and the community by agreed method. <ul style="list-style-type: none"> • Households affected • Town council/ward via the town clerk • Volunteers and keyholders 	
7	If needed, open a community shelter, call a community meeting and inform the community of what is/will be happening. Ensure the venue is safe and people can get there safely.	
8	Take notes, record actions and gather evidence during and after if it is safe to do so. If you decide to activate a plan, remember to keep in contact with the emergency services and follow their advice. If this is not possible then remember to follow this check sheet.	
9	When the emergency services arrive, the LERT Coordinator should introduce themselves and give them a copy of the plan with all recordings of decisions, actions and findings (situations logs). LERT Coordinator to be prepared to stay at the request of the emergency services.	

Reminder to all Volunteers (including LERT Coordinators)

Before agreeing to deploy – consider the following:

- Are you able/fit to respond?
- Are you fit to drive?
- Do you have use of a vehicle – if so, have you got fuel?
- What other commitments do you have that may stop you from deploying (work/personal)?

On agreeing to deploy – ensure you have the following with you:

- Your medication, if applicable
- Your mobile phone, emergency response plan and contact list and, if possible, a laptop
- Appropriate clothing, money, keys, ID card

Never do anything which puts you or anyone else in your community at risk

D1 Log sheet

Record all information during an emergency. A log sheet is an easy way to ensure information is not lost and can help support/justify any decisions made or actions taken.

Annex G – Situation Report (SITREP) using ETHANE model

Use this form to record information about an emergency and give it to emergency responders when they arrive.

A **Major** incident may be declared by one of the Category 1 responders only. There may be instances where Exmouth may need to provide additional resources and the situation report below will apply but under the direction of the emergency services.

Situation report		
E	Exact location of the emergency	
T	Type of emergency	
H	Hazards present or suspected	
A	Access – routes that are safe to use	
N	Number, type and severity of casualties	
E	Emergency services present?	

Date:

Time:

Location:

Attendees:

Current situation?

Location of emergency. Is it near:

A school?

A vulnerable area?

A main access route?

Type of emergency:

Is there a threat to life?

Has electricity, gas or water been affected?

Are there any vulnerable people involved?

Elderly

Families with children

Resources needed?

Food?

Off-road vehicles?

Blankets?

Shelter?

Establishing contact with the emergency services

How can we support the emergency services?

What agreed actions can safely be taken?

Agreed actions and leads?

Any other issues?

Annex I – Establishing and Operating a Community Shelter(s)

When an evacuation is needed, people will need a safe place. This safe place is the Community Shelter (CS).

Activation of a CS

A CS will be activated if the LERT decides that, due to the emergency, it needs to provide shelter before the emergency services arrive.

Staffing the CS

Volunteers will be needed to staff the CS. The minimum requirement is shown below:

Serial post responsibilities

	Post	Responsibilities
1	Parish shelter coordinator	<ul style="list-style-type: none"> • Located at CS • Manage shelter • Provide feedback to ICP
2	Receptionist 1	<ul style="list-style-type: none"> • Staff reception desk • Maintain register (registration form below)
3	Receptionist 2	As above
4	Volunteer first aiders (See Section 3 and Annex D)	<ul style="list-style-type: none"> • Provide basic first aid as required
5	Volunteer cook(s)	<ul style="list-style-type: none"> • Provide snacks/meals
6	Volunteer evac. assistants	<ul style="list-style-type: none"> • Assist evacuees • Issue blankets etc.

Names of community shelter volunteers to be added to the **Community Shelter Volunteer Register** found in **Annex E** above when it is agreed that a shelter will need to be set up.

This page has intentionally been left blank.

Community Shelter Registration Form**(When completing, use block capitals and black ballpoint pen)**

Community Shelter Name/ID Number:					Date:
REF*	LAST NAME	FIRST NAME	ADDRESS	CONTACT NUMBER	MEDICAL/ADDITIONAL INFORMATION

This page has intentionally been left blank.

I1 Evacuee information sheet

Please read this sheet as it contains information you will need about the Community Shelter (CS).

Registration

Please register at the reception desk. You don't have to register, but it is recommended, as it helps staff if any of your relatives are looking for you. **Your registration information is important to us as we may need to share this with the emergency services and principle authorities, but we will only use it for the purpose of this emergency only and it will not be shared with anyone else.**

Smoking and alcohol

Smoking and the consumption of alcohol is not permitted in the CS.

Personal belongings and children

We cannot assume responsibility for your belongings. Please keep valuable items with you. Parents are responsible for keeping track of and controlling their children. Please don't leave them unattended.

Medical and injuries

If you have a medical condition that needs special consideration, i.e., heart condition, recent surgery, or pregnancy, please tell the staff. All medical information will be written on your registration card and is confidential.

Pets

We understand pets are part of your family. Unfortunately our shelter may not be suitable for them. Tell us about your pets and we can help locate a temporary home for them where they will be well looked after. Registered Guide/Hearing Dogs are allowed within the CS.

Bulletin boards

Updates and bulletins will be put on a notice board for your information.

Volunteering and help

Evacuees are encouraged to help in the CS. Speak to the staff if you can help.

Telephones

We encourage you to tell a family member or friend where you are and ask them to tell others that may be worried about you. Please be considerate when using a mobile phone by speaking quietly.

Community Shelter(s) coordinator

Please listen to the coordinator and staff. They are the officials in the CS.

Problems and complaints

Please direct all comments about the CS operation to the coordinator.

News/media

News/media often visit the CS during an emergency. They may request interviews or photographs, however, they must ask your permission first. It is your right to refuse. Please report any problems or questions about the media to the coordinator.

Special needs/requirements

If you have any special needs, i.e. diet, health etc., please let the staff know.

If you require further information please ask any of the staff.

This page has intentionally been left blank.

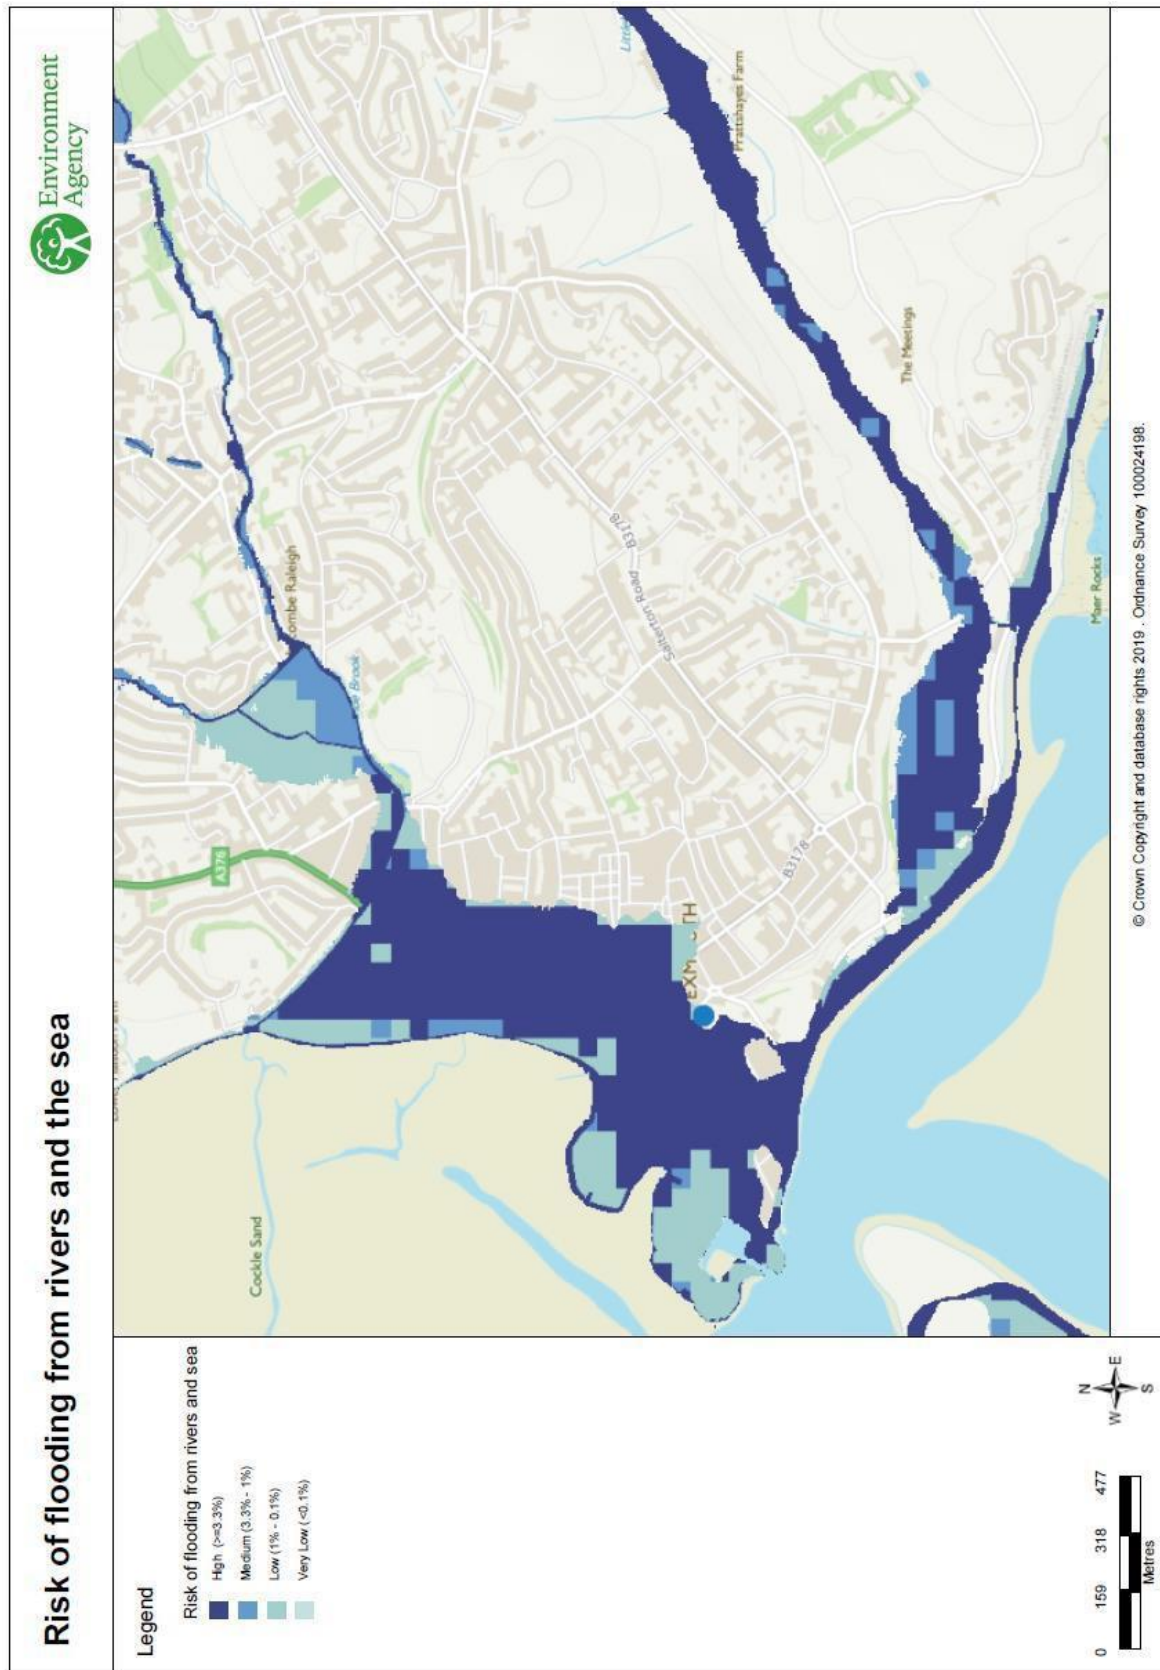

Annex J - Community Flood Plan

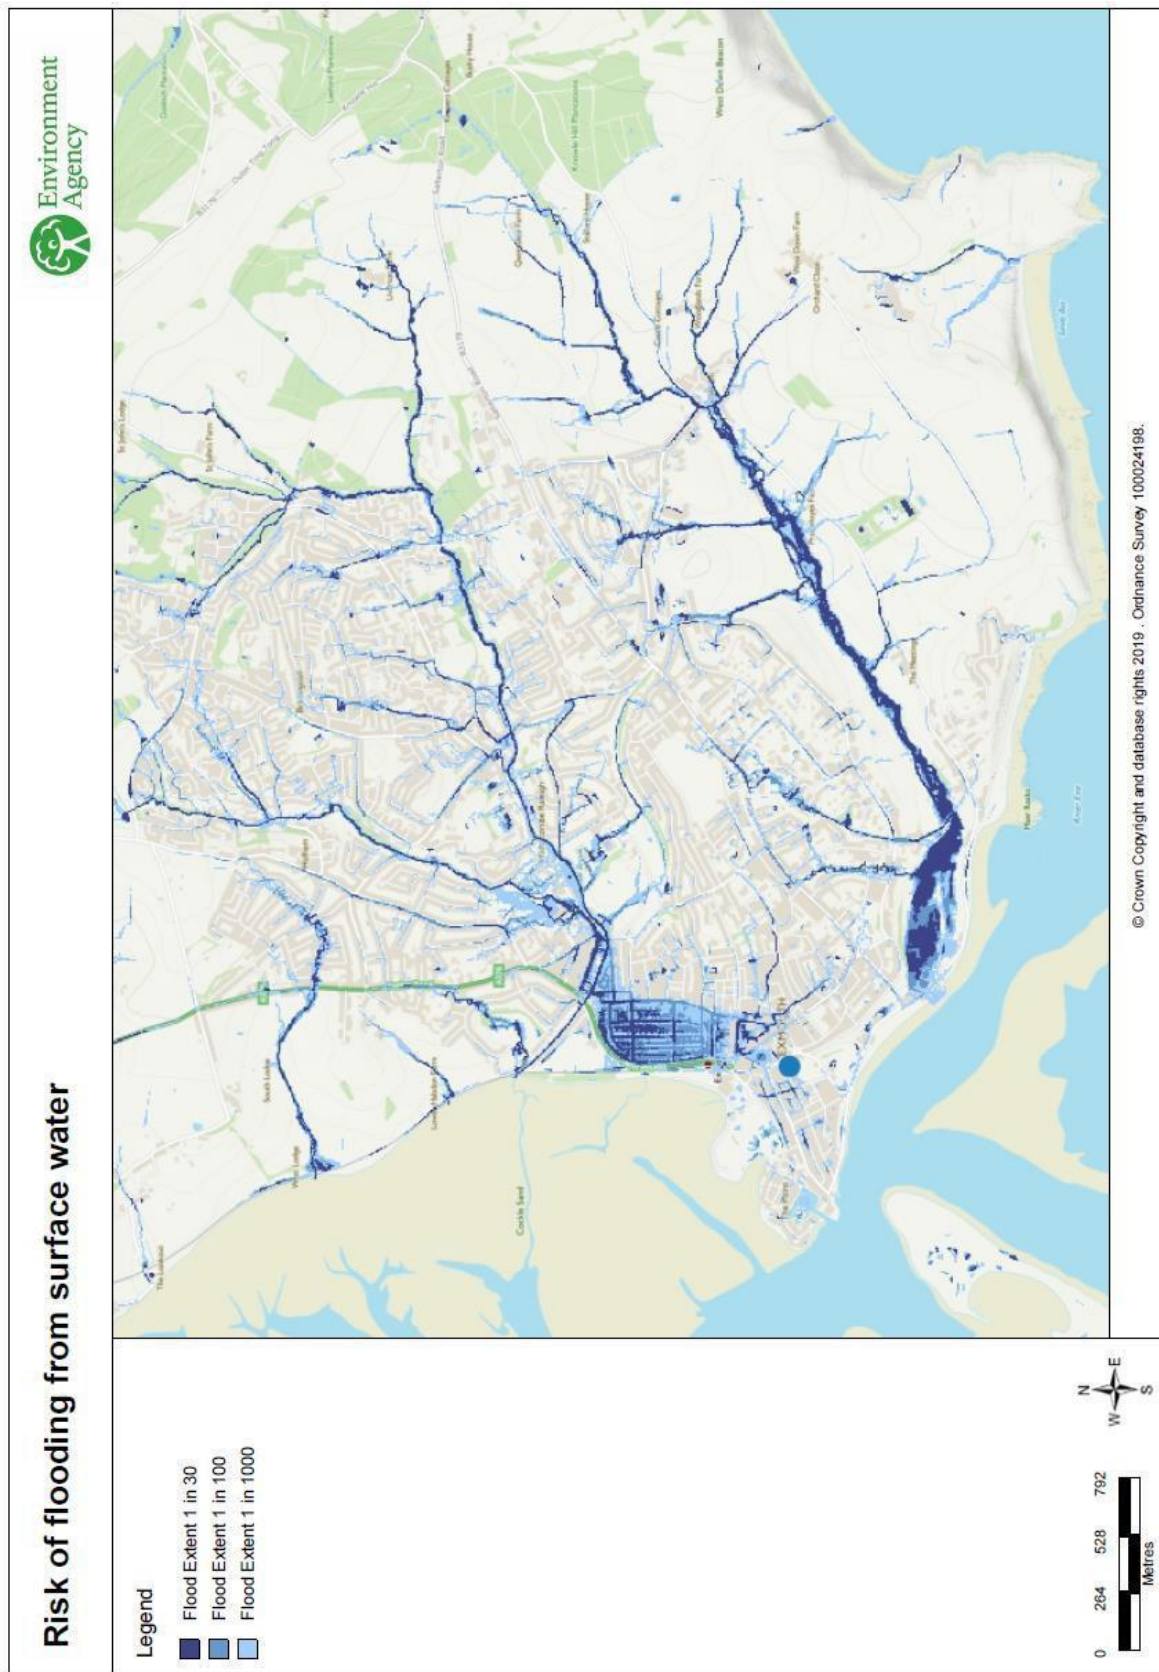

Contents of Community Flood Plan Annex:

- 1. Map showing flood risk areas and direction of flooding**
- 2. Actions to be taken before, during and after a flood**

Attached

This page has intentionally been left blank.

Actions to be taken before, during and after a flood

Before	<ul style="list-style-type: none"> • Communication at an early stage is essential • Alert your Local Emergency Response Team to the rainfall forecast, especially if heavy rain has started
	<ul style="list-style-type: none"> • Be aware. Know the signs.
	<ul style="list-style-type: none"> • Start local observations. Signs to watch for include: <ul style="list-style-type: none"> ○ Heavy rain and/or severe weather reports ○ Rainfall not draining away, leading to surface water flooding ○ Rising river levels, with dark churning water ○ A build-up of debris in rivers, which could give way and cause a wave of water to surge ○ Spray or wave overtopping on the coast
	<ul style="list-style-type: none"> • Start an incident log
During	<ul style="list-style-type: none"> • Report flooding and blockages that may increase flood risk: phone 0800 807060 and ask to speak to your local Flood Warning Duty Officer
	<ul style="list-style-type: none"> • Call 999 if there's a risk to life, or if you're trapped
	<ul style="list-style-type: none"> • Stay safe. Prioritise your own safety at all times
	<ul style="list-style-type: none"> • Be ready to relocate to a safe place, if told to do so by the emergency services
	<ul style="list-style-type: none"> • Do not walk or drive through flood water
	<ul style="list-style-type: none"> • Provide support and guidance ahead of the arrival of the emergency services. For example: <ul style="list-style-type: none"> ○ "Stay in a safe place with a means of escape. ○ If you're in a building with at least two storeys and believe it's safer to stay where you are, move to a higher storey of the building and wait for instructions from the emergency services. Turn off your gas, electricity and water mains supplies. ○ If you are in vulnerable accommodation e.g. bungalow, caravan or tent, seek shelter in the nearest two storey building or go to higher ground ○ Be ready should you need to evacuate your home. ○ Cooperate with emergency services ○ Do not walk or drive through flood water ○ Call 999 if you're in immediate danger"
	<ul style="list-style-type: none"> • Collect information about the flood, if it's safe to do so <ul style="list-style-type: none"> ○ Take photos ○ Note the date and time
	<ul style="list-style-type: none"> • When emergency services arrive <ul style="list-style-type: none"> ○ Local Emergency Response Team coordinator to make themselves known to the Operational Commander at an early stage ○ Provide an overview of the issues present. Relay concerns, local knowledge and issues to relevant authorities. ○ You may be asked to help relay information to the community (e.g. by door to door visits), such as areas to avoid/promote health, safety and well-being ○ You may be asked to assist with evacuation <ul style="list-style-type: none"> ▪ Cooperate with emergency services ▪ You can provide valuable support by directing people to a

	<p>place of safety e.g. temporary community shelter/official local authority rest centre</p> <ul style="list-style-type: none"> ▪ Remember: Nobody has the powers to force people out of their homes
	<ul style="list-style-type: none"> • Liaise with emergency responders before interacting with the media, even if 'off the record'
After	<ul style="list-style-type: none"> • Collect information about the flood, if it's safe to do so <ul style="list-style-type: none"> ○ Take photos ○ Note the date and time • Help relay concerns, local knowledge and issues to the relevant authorities • Signpost flood recovery advice e.g. http://www.bdma.org.uk/publications/flooddocs

Annex L – Pandemics or Similar

The declaration of a pandemic is a trigger under paragraph 3.1 of this plan for LERT members to meet and consider what action should be taken.

Partnership working is crucial to help prevent the spread of the disease and to support our residents. Containing local outbreaks successfully will need to be a co-ordinated effort with specialists from Public Health England, the NHS, social care, district councils, education, Police, private sector, employers and the community and voluntary sectors, depending on the case.

Devon County Council has primary responsibility for the response to a pandemic or similar event covering Exmouth. It has a Local Outbreak Management Plan (LOMP) which provides a blueprint for managing, for example, coronavirus (Covid-19) outbreaks to protect residents and to support the most vulnerable.

DCC will hold information about the number of local people previously identified within the coronavirus 'vulnerable and shielding' category and about the many people and families who need support during a pandemic.

Families may be instructed to self-isolate as a result of having symptoms or being identified as a close contact of a confirmed case and may find this difficult and may require additional support.

Although Devon County Council, working with partners and the voluntary and community sector, will ensure that these people are able to find appropriate help and support, EDDC has in turn responsibilities to look after its residents and under delegated responsibilities from DCC. EDDC has/will have a Hub to contact for information with regard to support for residents and businesses in East Devon.

However, we know our local area best and we know what additional support groups are available in Exmouth. ETC's role will be to provide the coordination and communication for the support of its residents through its volunteer groups. Such organisations are listed in Annex H.

The LERT team will initiate the communication necessary with the support groups. It will signpost support and provide communication on a local level.

Particular matters to consider by the LERT will include:

- Ensure the volunteer register is up to date;
- Look for funding/grants opportunities on behalf of non-constituted community groups;
- Provide regular updates by as many means as appropriate, including post, leaflets, posters in shops and information boards, WhatsApp, SMS, texts, Facebook Groups and radio as appropriate.
- Are there any non-English speakers within Exmouth? If so see:

NB List awaiting DCC confirmation of accuracy, Jan 2021

Annex M1 – Location of Grit Bins in Exmouth, Oct 2020 (Map)

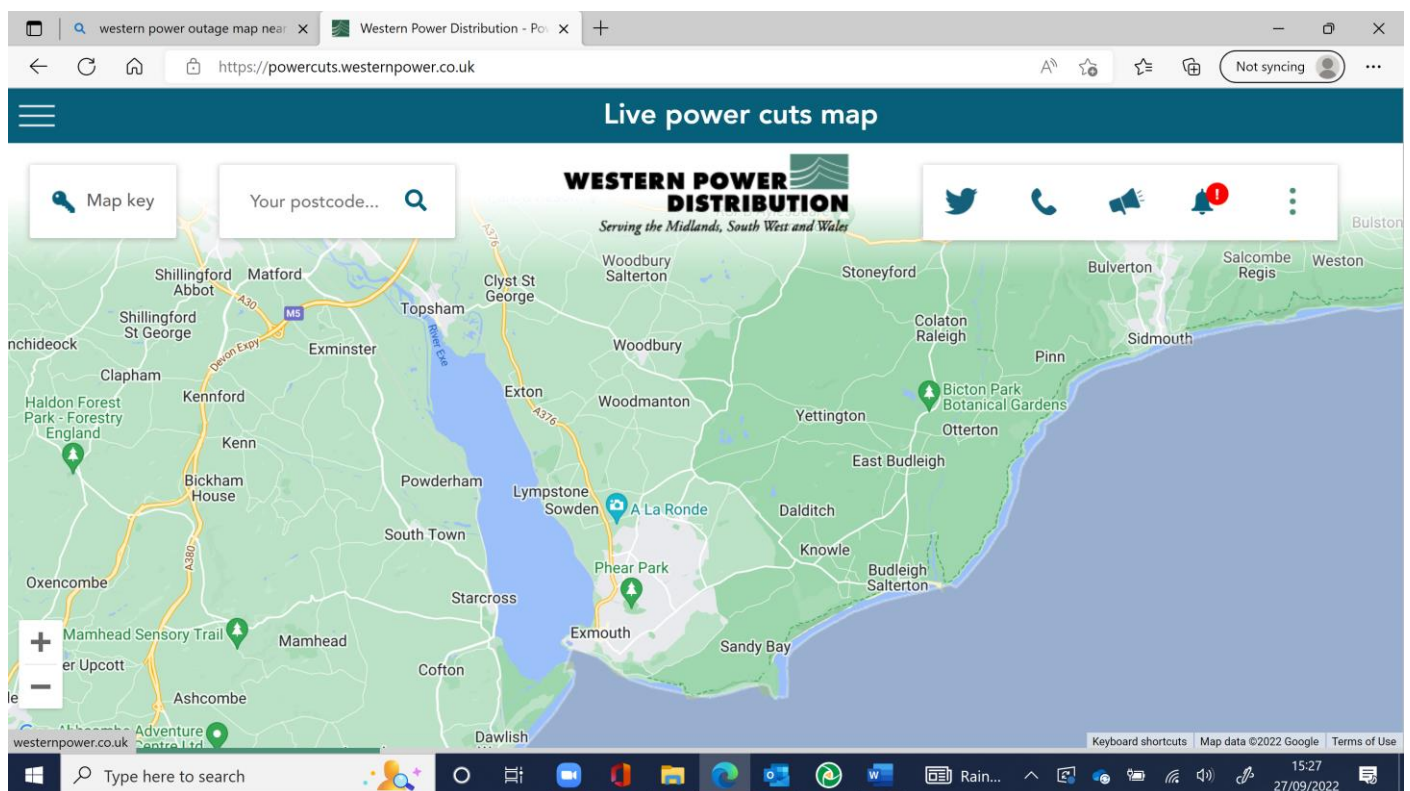

Annex N – Prolonged Loss of Power

The first step is to be informed of loss of power. Western Power details outage in real-time and information on this can be found at [Western Power Distribution - Power cuts in your area](https://powercuts.westernpower.co.uk)

This site charts the spread of the outage in real-time, with the number of customers in a particular postcode and the number affected by the outage.

Individual can also sign up to SMS alerts and report outage issues too.

Alternatively western power can be contacted on 105 which is a new, free and easy number to call. Priority assistance is also available by calling **0800 6783 105** or households requiring extra support can sign up to our Priority Services Register for future incidents.

Consideration should be given to shelters with back-up generators already in place. At present there are no generators in use and the LERT team will need to assess where the power outage is and seek one of the listed shelters in a location outside of this area.
